Opening Activity

Ask: What are some things you can do well? How did you learn how to do them?

Say: We can learn how to do things by practicing them over and over again (for example – tying a shoe). Often a teacher or parent will help us to learn things.

Today, we're going to talk about a letter the disciple Paul wrote to a church in Corinth. He talked about God being wise. **Ask:** What does it mean to be wise? (According to God, wisdom is hearing and doing what He says ([DEUTERONOMY 4:5-6](#)). Wisdom is knowing the difference between what is right and what is wrong according to God).

Open the Bible

Say: (1 Corinthians 1:19-21): Today's Bible scripture tells us that God is the wise one. He is wiser than any of us and we should listen to God and trust Him. Let's watch a short video from Douglas Talks as he explains more.

God wants to remind us that true wisdom begins with knowing God, the One who made all things.

Observe What God Wants You to Do – Game

Say: God wants you to always listen to Him no matter what. God will teach you what you need to know. Let's think of some ways that God can teach you.

Stand in a circle and toss a ball around the circle. Each time someone catches the ball, they have to say a way that they can listen to God. Here are a few examples: Praying, reading/listening to the Bible, going to church, listening to parents and teachers, and Praising God.

Say: God wants to teach you and doing these things will help you learn from Him. He wants to teach you!

Walk in Obedience – Activity

Pick someone to be the leader and play Follow the Leader. Think of creative ways to have the kids walk such as in a zigzag pattern, while jumping, backwards, like their favorite animal, skipping, or while spinning.

Say: God wants you to walk in follow Him. That means that no matter where you go or what you do you should always do what God is teaching you to do. Whether you are walking through your house, church, or anywhere always listen to what God wants you to do.
